Join us for lunch and a technical program

September 21, 2016

September Chapter Meeting - Austin-San Antonio SFPE

8:45 AM-3:30 PM

IBC/IFC Compartmentation Requirements – Designing and Enforcing Fire and Smoke Separations and Opening Protection

Location Details:

San Marcos Activity Center

501 E. Hopkins, San Marcos, TX

Schedule:

8:45 AM: Members arrive and sign in
9:15 AM - 12:00 PM: First half of seminar
12:00 PM - 12:45 PM: Lunch and chapter meeting
12:45 PM - 3:30 PM: Second half of seminar
3:30 PM: Adjourn

Program:

This program presents a comprehensive explanation of compartmentation requirements in Chapters 3-10 of the International Building Code and associated requirements in the International Fire Code, including firewalls, fire barriers, fire partitions, smoke barriers and smoke partitions. Discussion will explore the guiding principles of fire- and smoke-resistance requirements in the codes and will provide an in-depth review of opening protectives, particularly fire doors. In addition, specific application of compartmentation requirements to elevator enclosures, means of egress, vertical openings, mixed occupancies and fire areas will be discussed.

Speaker: David Dodge, Vice President, Business and Code Development - McKeon Door Company

Mr. Dodge has been involved in the construction industry since 1975, and has a bachelor's degree in business management. He has a passion for building code development and architectural design compliance. Since 1988, he has assisted architectural firms in understanding and implementing the provisions of the model codes as they pertain to fire and life safety, with an emphasis on the fire door industry promoting cutting edge technology to resolve code compliance challenges. Mr. Dodge is a corporate member of the International Code Council (ICC) and has earned his Construction Document Technologist (CDT) from the Construction Specifications Institute. He has served on several ICC committees, both local and national, for the adoption and implementation of the International Building Code throughout the nation. With over 25 years of experience in the building code arena, he is a recognized speaker and instructor teaching the fire and life safety provisions of the model codes to design professionals and regulatory officials.

Registration Fee:

SPECIAL OFFER: Fee includes 2016-2017 chapter dues!

Current Member (Paid Online): \$50

Non-Member (Paid Online): \$60

Member / Non-Member (Paid at Door): \$80

RSVP DEADLINE IS 5:00 P.M. on September 16th. Space is limited, please RSVP as early as possible to ensure registration.
